

NORMA

arper

Norma

Like a child's drawing of a chair, Norma is reduced to its essence: stark, lightweight, polished. This formal purity is leavened by vibrant colors, natural materials, lively details and topstitching. Originally conceived in leather, it also includes upholstered models and durable metal or veneered legs that extend its range and use. Norma is available in chair versions with three backheights, stool with hard leather, fabric or leather upholstery cover. Painted, chromed, and veneered metal legs extend the durability of upholstered chair and stool versions for contract use. A special stackable version is also available, with upholstery and medium-high backrest.

Designer

Lievore Altherr Molina, 2005

Lievore Altherr Molina was founded by Alberto Lievore, Jeannette Altherr and Manel Molina in 1990. Their humanist design approach is informed by the fundamental desire for pure, beautiful forms derived from the constraints of function, technology and context. Distinguished by a multi-disciplinary method that engages furniture, interior, product, and package design, their work has been globally exhibited and acknowledged. They are the recipients the prestigious National Design Award (1999) in Spain where they practice and teach extensively.
