

Kast

Maarten Van Severen, 2005

Kast 1 HU

Kast 2 HU

Kast 3 HU

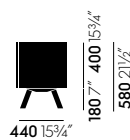

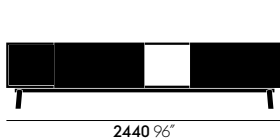

Modular in structure, the Kast storage unit starts with a sideboard as the base version. For the medium-height version, a second base module is placed on top to create a shelf/wall cabinet combination. In the tallest version, two simple and sturdy wooden elements are added. Maarten Van Severen paid special attention to the colours of the sliding

doors, which not only emphasise the proportions of Kast but also give it a fresh and optimistic feeling.

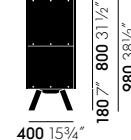

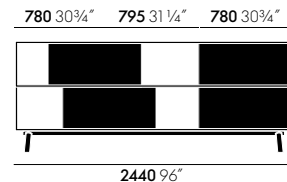

Materials

- **Shelves:** extruded aluminium profiles, anodised.
- **Side walls:** MDF, powder-coated.
- **Sliding doors:** powder-coated aluminium sheet in pink, dark green, sulphur yellow, dark blue, bronze-grey and bright white.
- **Legs:** tubular stainless steel, individually height-adjustable.

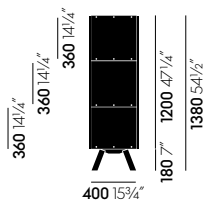

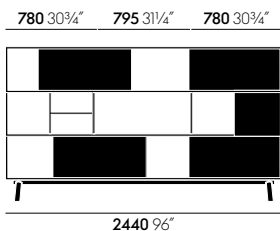

Dimensions

Kast, 1 HU (height unit), four sliding doors

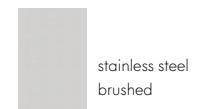

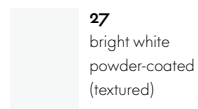

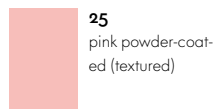

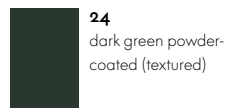

Kast, 2 HU (height unit), eight sliding doors

Kast, 3 HU (height unit), eight sliding doors
