Absorption

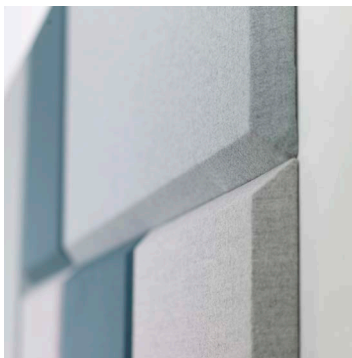

Domo wall

Design Stefan Borselius

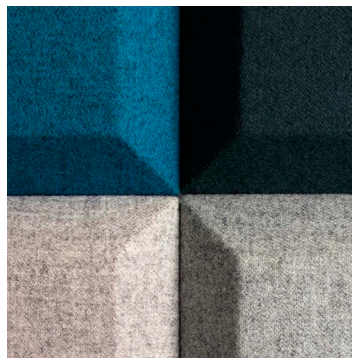

Domo Wall är en väggmonterad ljudabsorbent med fasade kanter. Finns i rektangulär och kvadratisk modell och monteras horisontellt eller vertikalt, vilket ger valfriheten att skapa både symmetriska och asymmetriska mönsterformationer.

Domo wall is a wall mounted sound-absorber with bevelled edges. Available in rectangular and square-shaped modules, which gives the opportunity to create different kinds of pattern formations.

De fasade kanterna ger väggabsorbenten en självklar elegans.

The bevelled edges lend the wall absorbers a natural elegance.

Modulerna består av en textilklädd träram med ljudabsorberande fyllning. Monteras på dolda beslag.

The modules are made from a wooden frame with sound-absorbent filling, upholstered with fabric. Mounted on hidden fittings.

Passar utmärkt att kombinera med andra produkter från Domo-serien; bordsskärm, golvskärm, väggbås och förvaring!

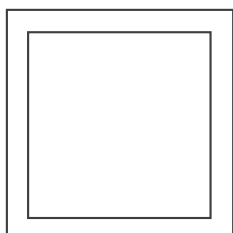

Ideal to combine with other products from the Domo series; table screen, floor screen, wall booth and storage!
