Design: Anya Sebton

Designen på ljudabsorbenten Scala är inte bara utvecklad av visuella skäl, utan främst för att bidra till ett mjukare ljudlandskap. Scala är en lekfull parafra på korrugerad plåt där formens funktionalitet nyttjas.

The design of the sound-absorbent Scala is not only developed for visual reasons, but primarily to contribute to a softer soundscape. Scala is a playful paraphrase on corrugated iron that simultaneously employs the functionality of the shape.

Den väggmonterade Scala finns i flera storlekar. Horisontell eller vertikal montering på dolda väggskenor.

The wall-mounted version of Scala is available in different sizes. Portrait or landscape format, to be hung on hidden wall brackets.

Den nedpendlade Scala hindrar ljudvågorna att fortsätta uppåt i rummet, vilket bidrar till ett behagligare ljudlandskap.

The ceiling-hung Scala prevents sound waves to continue upwards in the room, which contributes to a more pleasant soundscape.

Modulerna är tillverkade av formpressat filttyg med en ljudabsorberande fyllning. Scala är 100 % återvinningsbar, tyget är godkänt av EU Ecolabel.

The modules are made from compressed felt fabric with a sound absorbing core. Scala is 100% recyclable, and the fabric is approved by EU Ecolabel.

**"The inspiration comes from the many houses in Iceland, where not only the roofs, but the facades too, are covered by corrugated iron. It gave birth to the idea of bringing it into the space."**

**Anya Sebton, designer**

# Scala

## SCALA DESIGN ANYA SEBTON

Scala is a playful paraphrase on corrugated iron that simultaneously employs the functionality of the shape. The moulded felt absorbs sound and the wave-shaped surface effectively breaks the sound waves. The modules are made from moulded felt fabric (Blazer) with on a sound-absorbing core. Mounted on hidden wall brackets. Available in two different performances; wall-mounted and suspended from the ceiling (with or without lighting). Scala is 100% recyclable and the fabric is approved by EU Ecolabel.

## SCALA FLOOR SCREEN DESIGN ANYA SEBTON **New!**

The new Scala floor screens are covered by felt on both sides. For the floor- and the table screens, Anya Sebton has developed stands, composed by steel pipes, which highlight the spontaneous manner of the design. The modules are made from moulded felt fabric (Blazer) with on a sound-absorbing core. The stand is available in black or white lacquered performance. Scala is 100% recyclable and the fabric is approved by EU Ecolabel.
